Hi Linda,

We can certainly set up a time to talk. Did you receive my email, dated April 18, regarding the below requests? If not, I can resend.

Regards,

Margo B. Ludmer  
Assistant Regional Counsel  
New York/Caribbean Superfund Branch  
Office of Regional Counsel  
U.S. Environmental Protection Agency, Region 2  
(212) 637-3187

**Subject:** Canadian Radium & Uranium Corp. Site EPA Site Contact No. EP-S2-14-01

I am the new environmental counsel for Mark Stagg, one of the owners of the Canadian Uranium Site. You met my partner Dwight Kanyuck at a meeting last June. We were hoping you can help us obtain the following recent information and set a time to discuss the status of a Remedial Action that would be acceptable to EPA for the site:

1. Geological Information about the Site – depth to groundwater and thickness of the aquifer (Report called Final Phase III Removal Assessment Trip Report May 15, 2017 indicates two different groundwater depths 5 ft bgs and 23 ft bgs)
2. Off-Site groundwater investigation results
3. Status of a Remedial Action Work Plan or a conceptual remedial action

Please advise if we can set up a time to talk. Thank you, Linda Shaw
